

RE: NAB petition 04-160
To whom it may concern at the FCC:

I am writing to respectfully request that you reject the NAB's petition 04-160. Consumers in this country vote with their dollars, and in the case of XM & Sirius radio, more and more US consumers are saying that they prefer to pay for these satellite radio services, as opposed to continuing to tune into local radio stations.

I would urge you to recognize that the American people are speaking to you by choosing to subscribe to these services, and the FCC should not make attempts to limit the type of content that they offer.
